A list of patent(s) and/or publications not already submitted in previous disclosures is set forth on the attached PTO-1449. A copy of each item listed is supplied herewith.

WO 00/08924 is the publication of a PCT application filed by one of the two present inventors, Anthony C. F. Perry, which claims the benefit of the same two provisional applications (60/096,078 and 60/134,251) as the present application. Ryuzo Yanagimachi, another inventor of the present application, filed the present application by means of a Petition under 37 CFR § 1.47 (filed January 28, 2000) on behalf of himself and joint inventor Perry, who refused to join in this U.S. application. The reasons for the filing of the Petition are set forth in the Declaration of Calvin P. Griffith, filed with the Petition. The present applicant does not know whether Perry and Teruhiko Wakayama have filed WO 00/08924 in the United States. If they have, it may interfere with the present application.

In accordance with 37 CFR § 1.97(h), the filing of this Supplemental Information Disclosure Statement shall not be construed to be an admission that the information cited in the statement is, or is considered to be, material to patentability as defined in 37 CFR § 1.56.

In accordance with 37 CFR § 1.97(g), the filing of this Supplemental Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR § 1.56 exists.

Any additional fees required for the proper filing of this Supplemental Information Disclosure Statement should be withdrawn from the Jones, Day, Reavis & Pogue Deposit Account No.50-1432, reference 265036-600070.

Respectfully submitted,
